PROJECTS

YouTube Clone:

- Developed a static YouTube clone frontend using HTML, CSS, and JavaScript to replicate the user interface and experience of the popular video-sharing platform.
- Implemented 20+ user interface components, including a video player, sidebar, and user profile section.
- Ensured 100% responsiveness to deliver a seamless viewing experience across devices.

Exploratory Data Analysis (EDA):

- Conducted exploratory data analysis (EDA) on a dataset of Play Store apps to extract actionable insights using 4 libraries- Numpy, Pandas, Matplotlib, and Seaborn.
- Processed and cleaned a dataset of 10,000 Play Store apps, achieving a data cleaning accuracy rate of 98%.
- Analyzed various attributes including app category, rating, and installs to identify the top 5 Play Store Apps.

Portfolio:

- Developed a personal portfolio website using frontend tools to showcase skills including 5 projects.
- Implemented 5 interactive features, including a contact form, animated transitions, and scroll-based animations, enhancing user engagement and interactivity.
- Incorporated 5 project showcases, a resume download option, and a contact form to provide comprehensive information to visitors.

ADDITIONAL

Technical Skills:

- Python, C, C++, HTML, CSS, JavaScript, Bootstrap, SQL, MySQL.
- MERN (MongoDB, Express.js, React.js, Node.js)

Certifications & Training:

- Certificate in C & C++ - Excellent Computer Centre **2023**
- Certificate in Python Core & Advance – Coding Thinker **2023**
